

Press Release

Rhodes Youth Forum

5TH ANNUAL SESSION

“THE POSITIVE INVOLVEMENT OF YOUNG PEOPLE IN THE LIFE OF SOCIETY: FROM INDIVIDUAL INITIATIVES TO COLLECTIVE COOPERATION”.

From 25th till 29th September 2014, the Rhodes Youth Forum, organized by the international non-profit organization Youth Time, shall, for the fifth time, gather nearly 100 young people from around the world on the island of Rhodes in Greece. They will discuss the role of the new generation in the development of social entrepreneurship, international diplomacy and education.

This year, Rhodes Youth Forum will be a platform not only for the presentation of dozens of participants' projects, and discussions of current issues with the representatives of an older generation and high profile experts from around the world. It will also allow the participants to join the World Public Forum “Dialogue of Civilizations” (WPFDC) within the framework of a joint session. The opinions of the young activists will therefore be heard by businessmen, politicians and experts in different fields from across the globe.

Traditionally, young people who are distinguished by their responsible and constructive attitude towards global changes occurring in the social, economic and political fields, have an opportunity to participate in Rhodes Youth Forum. They should also be ready to offer their ideas and projects concerning an improvement of the situation and involvement of young professionals with a qualitatively new approach to global and local problems in those processes.

As before, the priority of Rhodes Youth Forum will be the projects, whose authors are ready to meet the challenges of modern global changes not only in word but in deed.

The winners of the contest for the best projects will receive the support from partners and sponsors of Rhodes Youth Forum, enabling them to carry out the announced plans. The Youth Time intellectual club, which consists of invited independent experts, will provide the most promising projects with professional analysis and recommendations.

THE SECTIONS OF RHODES YOUTH FORUM 2014:

- Modern educational environment;
- Youth diplomacy and international relations;
- Social entrepreneurship;

The working language of Rhodes Youth Forum is English.
